

# **ePortal Student Alerts** Setup Guide

This guide will go through the steps needed to setup an alert for a student using ePortal. It will show you how to create the alert and where the alert will show up once it has been created.

To use this guide, you will need to login to ePortal with your username and password, once logged in, follow the steps below to get started.

## Creating The Alert

To create an alert for a student you will need to find the alert creation section of the ePortal home page. This may be in a different place depending on your user type but should be found somewhere on that page.

### Useful Tip:

The box you are looking for should look similar to the one shown in the image to the left. This box could be hidden so if you find the Alert Creation bar and click the + icon it will expand it.

To create the alert you will want to click the 'more' button in the top right of the box. This will take you to a new page which will look like the below image.

This section lets you search for the student to create an alert for.

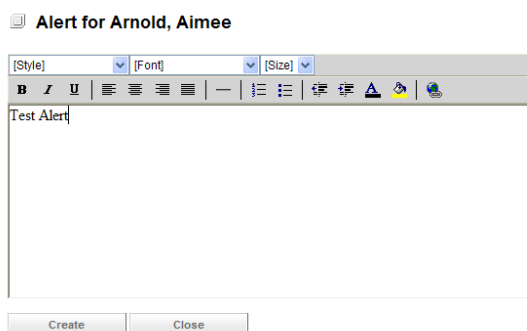

The letter dropdown list lets you choose the first letter of a student's surname.

The blank dropdown box lets you select the student. This box is ordered according to the letters chosen from the box before it.

The create alert button will take you to the page where you decide what message you want in the alert.

Once you have clicked the create alert button you will be given with the following screen.

In this screen you can type in what you want the alert to say. Once this is done you can click the create button to create the alert or the cancel button to cancel it.

Once created, you will be able to view the alert on the register, which will be shown in the next step.

## View Register Alerts

You can view the alert you have created in the register section of ePortal. This is shown below.

<input checked="" type="checkbox"/>	<b>Present</b>
<input type="checkbox"/>	Late
<input type="checkbox"/>	No Reason yet provided

Submit Values
Reset Values
Add Event
Create Excel File
Reset Columns

Select the required option(s):

Student photos	<input type="checkbox"/>
Gifted & Talented	<input type="checkbox"/>
Roll Call %	<input type="checkbox"/>
Reg %	<input type="checkbox"/>
SEN details	<input type="checkbox"/>
Preferred name	<input type="checkbox"/>
Add Additional Column (max 3)	<input type="checkbox"/>

### Registration for 11F/ICT for the current

Select All	Teaching group 11F/ICT Key Stage 4, Year 11	
<input type="checkbox"/>	 Arnold, Aimee	SEN
	 Alerts (1 new / 0 read )	
<input type="checkbox"/>	 Bevan, Rhys	
<input type="checkbox"/>	 Docker, George	
<input type="checkbox"/>	 Ellis, Matthew	
<input type="checkbox"/>	 Farmer, Jordan	
<input type="checkbox"/>	 Hambleton, Craig	
<input type="checkbox"/>	 Henderson, Declan	
<input type="checkbox"/>		

The alert will show up on the register under the students name. This alert can then be viewed by clicking on the alert, which will display a popup. Like below.

 Alerts

Created: Ralph, J Mr 02-11-2011 10:00 [1 of 1] : ☐

Test Alert - Please Ignore

Actioned

Close

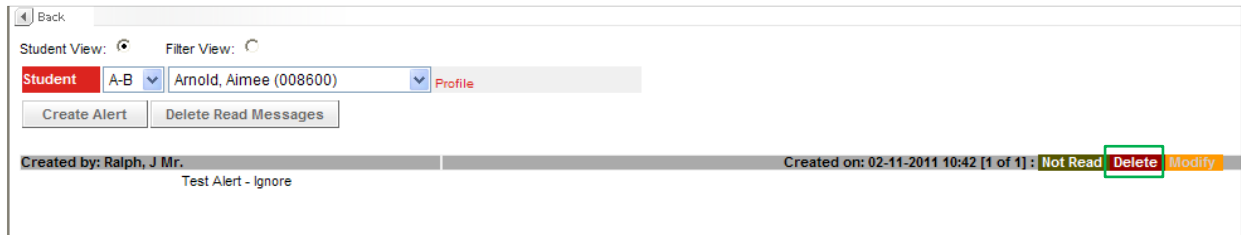

### Useful Tip:

Once viewed, you can close the popup or you can 'action' the alert. Clicking the actioned button means you have taken the required action towards the alert.

## Deleting an Alert

If you need to delete an alert for any reason (eg. If the alert was to the wrong student) you can do so by following the below steps.

If you go to the Alert Creation page from the home page, as shown above you will be able to select the student you created the alert for and delete the alert.

The screenshot shows a web interface for creating alerts. At the top left is a 'Back' button. Below it are 'Student View' and 'Filter View' sections. The 'Student View' section includes a red 'Student' label, a dropdown menu showing 'A-B', a text input field containing 'Arnold, Aimee (008600)', and a 'Profile' link. Below these are two buttons: 'Create Alert' and 'Delete Read Messages'. At the bottom, there is a table with one row. The first column shows 'Created by: Ralph, J Mr.' and 'Test Alert - Ignore'. The second column shows 'Created on: 02-11-2011 10:42 [1 of 1]'. The third column contains three buttons: 'Not Read' (green), 'Delete' (red, highlighted with a green border), and 'Modify' (orange).

### Useful Tip:

You can only delete an alert if it has not been read. Once an alert has been read, you will also be able to action the alert from this menu.
